How government uses your data

The governance data that we lawfully share with the DfE via GIAS will:

- increase the transparency of governance arrangements
- enable maintained schools, academies, academy trusts and the DfE to identify more quickly and accurately individuals who are involved in governance and who govern in more than one context
- allow the department to be able to uniquely identify an individual and in a small number of cases conduct checks to confirm their suitability for this important and influential role

Data collection requirements

To find out more about the requirements placed on us by the DfE including the data that we share with them, go to <https://www.gov.uk/government/news/national-database-of-governors>

Some of these personal data items are not publicly available and are encrypted within the GIAS system. Access is restricted to authorised DfE and education establishment users with a DfE Sign-in account who need to see it in order to fulfil their official duties. The information is for internal purposes only and not shared beyond the department, unless the law allows it.

- if they are processing your personal data
- for a description of the data they hold about you
- the reasons they're holding it and any recipient it may be disclosed to
- for a copy of your personal data and any details of its source
